Health Information

Laketrails Base Camp is located approximately 2 hours from the nearest medical facility, and participants are considerably farther away when "on trail." The participant will be involved in a strenuous camping program including a five day wilderness canoe trip that entails several hours of paddling each day and lifting canoes or packs weighing from 40-80 lbs. Loading and unloading canoes often takes place on wet, slippery, and rocky surfaces. It is important that the participant understand the rigors of the trail experience and that Laketrails be made aware of any health conditions that could have an effect on participation.

PARTICIPANTS MUST COMPLETE THE LAKETRAILS ADULT HEALTH FORM.
